

People of prayer, ask God to send workers

Daily headlines report how employers are experiencing a significant shortage of qualified workers, and this is certainly true among aging services providers. Many older adults are anxiously waiting to receive the services they need as providers and family caregivers are stretched thin.

People of prayer: Will you please join us?

As Jesus said to his disciples, *"The harvest is plentiful, but the workers are few. Ask the Lord of the harvest, therefore, to send out workers into his harvest field."* – Matthew 9:37-38

Please consider sharing this in your services / prayer chains, etc:

Holy God, we pray that you would bring relief to the workforce shortage currently impacting care for older adults. We pray for all who do provide care for elders. Let them continue to meet the needs of our elders and all vulnerable adults. By the inspiration of your Holy Spirit, send them individuals who are inspired by service and dedicated to providing care. (Lord, in your mercy/Amen)
